

HPDC logo: Click to go back to the home page and see all the information requests.

Submit: Use this button to submit your request back to the manufacturer.

Share: Use this button to share the request with colleagues.

Support: Click to read FAQs or submit a support request

Messages: Click to send messages to the manufacturer.

Product name: Click to change product information such as name and weight unit.

Show initial request again: Click to see the original request message (same as in the email you received).

Instructions: Click to find a link to the full instructions document and video tutorial.

Request information from a supplier: This function will allow you to request product data from your suppliers.

Screen maximizer: Click to maximize the graph.

Edit: Click to edit material or substance information.

Delete: Use to delete materials or substances. Keep in mind that substances attached to a material will get deleted with the material.

View more: Click this icon to see more information for materials and substances. This is where you may see associated hazards information for substances.

Graph options: Click to select and organize columns and setup filters.

Add Substance: Click to add a new substance to the product inventory. Keep in mind that you need to add at least one material before adding a substance.

Add Part: This function will be enabled with the release of the HPD v2.3.

Add Material: Click to add a new material to the product inventory

Import BOM: Use to upload your product's BOM to fill the request. This functionality is only available when the request is empty.

The screenshot shows the HPDC Information Request interface. At the top, there is a navigation bar with the HPDC logo, a 'Messages' button, and a 'Submit' button. The main content area is divided into several sections: 'Substance Information' (listing Product Weight, Water, and Titanate), 'Product' (listing Product Name, Product ID, and Notes), 'Shared with' (listing Requester and Supplier), 'Requester Information' (listing Company Name, Contact Person, Email, and Phone No.), 'Supplier Information' (listing Contact Person and Email), and 'Request Information' (listing Request Name, Requested Completion Date, Threshold Level, Status, Created on, and Updated on). Below these sections is a message from the customer and a table of substances. At the bottom, there are buttons for 'Add Substance', 'Add Part', 'Add Material', and 'Import BOM'.

Action	Name	Min Wei...	Max We...	Min wt%	Quantity	Max wt%	Material Type
	FabricWhite	0.2 kg	0.2 kg	20.0%	1		BioMaterial
	Titanate (TiO32#-), disodium	0.04 kg	0.04 kg	20.0%	1	20.0%	
	Water	0.06 kg	0.06 kg	30.0%	1	30.0%
